

From the Health Office:

8th Grade Medications and Modified Sports Information For the 2020-2021 School Year

June 2020

Dear Parent/Guardian,

It is important to inform the school nurse of any health/medical issues (allergies/epipen, asthma/inhaler or diabetes) your student may have. If your child has allergies and/or asthma, you are required to provide the **Emergency Care Plan Form**. If your child requires prescription or over-the-counter medication in school, the **Medication Authorization Form** must be completed by the physician and signed by parent/guardian **every school year**. Medication supply, including over the counter, must be provided by you and dropped off at the Health Office in the original container. Parents are required to fill out a [Health Office Emergency Form](#) for EACH child if you are unable to be reached when your child is sick or injured. Please indicate any pertinent health history, medications and appropriate persons/phone numbers for use in an emergency.

Please return the completed forms to the Middle School Health Office **by September 8, 2020**. No medication will be given without a completed medication form. The forms you may need are attached and also on the IMS website.

***** Modified Sports Program.:** Due to COVID-19, there is some uncertainty around fall sports. At this point, we anticipate the fall season to begin in September for students with completed and approved registration on the Family ID website. Online registration will open in August. Information regarding Family ID and registration will come directly from the Athletic Director's office this summer. Please direct any sport related questions to our Athletic Director (914-269-5491).

For any health/medical questions please call or email the Health Office.

Stephanie Korn, BSN, RN

Middle School Nurse
