## Club Schedule *As of 11/12/2024*

Club	Description	Advisor	Location	Student contact OR Student Officers	Tuesday (2nd and/or 4th)
<b>Academic Challenge</b>	The Academic Challenge team meets after school two days a week in order to practice and improve their skills for academic competitions against other schools in the area. The club encourages students to enhance and celebrate their academic prowess while providing a sense of camaraderie and a fun, engaging social interaction for some of our brightest students. The team competes at 8-9 local tournaments held on weekends throughout the school year, with the chance to qualify to compete at national championship tournaments.	Dr. James		Iris Ma Firel Lang	Practice meetings are after school
<b>ACSL (American Computer Science League)</b>	The American Computer Science League is a fun competition that happens four times a year. There are two portions - a coding portion and a short answer. Coding experience is NOT needed for the short answer portion. Join our Google Classroom page for announcements and information or check out the ACSL website. <a href="https://www.acsl.org/">https://www.acsl.org/</a>	Mrs. Cassidy		Join our Google CR page for more information: bz55cg2	(no formal meetings during club periods, look at Google CR for contest info)

<b>Alianza</b>	Alianza is the IHS Latine Student Alliance. The goal of Alianza is to create space, connection, voice, and representation for our Latine/o/a/x student body in addition to bringing joy and cultural awareness to IHS. All students are welcome!	Ms. De Lisi	H201	Hannah Blanco	Every club period + project committee meetings determined by students
<b>Ancient Greek Club</b>	The Ancient Greek club promotes interest and awareness in the civilization of Ancient Greece. You do not need to be a student of Ancient Greek to join, and we will hold events and lessons about the Greeks and their contributions to the world.	Mr. Silverman	H225	Kian Vasudev Josh Lee Jeremy Ourman	
<b>Art Club</b>	<p>The purpose of the Art Club is to give students the opportunity to express their artistic ideas and skills and to beautify the school building. The students may work on murals for various spaces throughout the school. Through the murals students are developing skills for projects in the real world. They have to develop ideas for their mural sites and the images must be approved by building and grounds. Students have to determine the materials needed and write a grant for the supplies. They must organize to determine the time and number of students needed to complete the mural and they complete it in a timely manner to satisfy the classroom teacher.</p> <p>Students may also use the club period time to work on art that is fun, meditative and important to them. Many students choose to work on designing ceiling tiles for the art room, which takes usually a semester to complete.</p>	Ms. Tetro	L102	Sam Toeman Marlo Gordon

It's a place to explore new ideas, challenge perspectives and develop an appreciation for literature.</p>	Dr. James	L114	Kayla Derouseau  Nafisatou Diop	Meets during club periods
<b>Chess Club</b>	<p>Students will engage in this activity through club meetings by playing games with those in their club, as well as having access to puzzles and lessons from club officers or online from chess professionals. The club's mission is to foster a respect and passion for the game of chess and to increase the skills of individual students, as well as the group as a whole. This will be done through in-school tournaments and incentives. The club's direct product will be a swiss-style tournament at multiple points during the school year at IHS, either after school or on a weekend.</p>	Ms. Lentini			Both

<b>Robotics Club</b>	<p>Our team, the Bulldog Bytes, competes each year in the international FIRST Robotics competition, building a 4 foot tall, 125 lb robot capable of driving, shooting projectiles, and even climbing stairs. Although this may seem intimidating, we guarantee that regardless of your STEM experience or specific interests, you will love our club where we bring people together around robotics. This is our main purpose: to teach as many people as possible about how to design, build, program, and use robots, and this is why we welcome anybody with any amount of experience, as long as you would like to learn or help out in some way. We need everything from artists to photographers to social media “experts” to help share what we do and increase STEM awareness in our community. Despite uncertainty about what this year will hold, if you have any interest in what has been described here, the Irvington Robotics Team is the right club for you. If you would like to join (including returning members), please fill out the super short form below! We also included some fun, short clips of our creations if you want to see some of our highs and lows over the years.</p>	Ms. Brinkerhoff	L108	Ben Meyer Adarsh Sharash Oliver Sack Mathewson Mifsud	Meets every club period
