

# **Diabetes Medical Management Plan (DMMP)**

This plan should be completed by the student's personal diabetes health care team, including the parents/guardians. It should be reviewed with relevant school staff and copies should be kept in a place that can be accessed easily by the school nurse, trained diabetes personnel and other authorized personnel.

Inis plan is valid for the current school year:		
	Date of birth:	
□ Type 1 □ Type 2 □ Other:		
School p	none number:	
Homeroom teacher:

# **Checking blood glucose**

Brand/model of blood	glucose meter:				
Target range of blood	-				
<b>Before meals:</b> □ 90–1	30 mg/dL ☐ Other: _				
Check blood glucose le	evel:				
☐ Before breakfast	☐ After breakfast	☐ Hours after breakfast	☐ 2 hours after a	correction dose	
☐ Before lunch	☐ After lunch	□ Hours after lunch	☐ Before dismiss	sal	
☐ Mid-morning	☐ Before PE	☐ After PE	□ Other:	· · · · · · · · · · · · · · · · · · ·	
☐ As needed for signs/s	☐ As needed for signs/symptoms of low or high blood glucose ☐ As needed for signs/symptoms of illness				
Preferred site of testing	g: ☐ Side of fingertip	☐ Other:			
Note: The side of the fine	gertip should always be	e used to check blood glucose lev	vel if hypoglycemia	is suspected.	
Student's self-care blo	od glucose checking	skills:			
☐ Independently checks	own blood glucose				
☐ May check blood gluc	ose with supervision				
☐ Requires a school nur	se or trained diabetes	personnel to check blood glucose	e		
☐ Uses a smartphone of	r other monitoring tech	nology to track blood glucose val	ue		
Continuous glucose m	onitor (CGM): 🗆 Yes	Brand/model:			
Alarms set for: Sev	ere Low:	Low: High:			
Predictive alarm: Low	: High: _	Rate of change: Low	r: Hig	gh:	
Threshold suspend setting					
CGM may be used for in	sulin calculation if gluc	ose is between mg/dL _	YesNo		
CGM may be used for hy	ypoglycemia managem	ent Yes No			
CGM may be used for hyperglycemia management Yes No					
Additional information	on for student with	CGM			
<ul> <li>Insulin injections</li> </ul>	should be given at lea	st three inches away from the C0	GM insertion site.		
	ct from the CGM for sp				
		ith approved medical tape. everything to the parents/guardia	ns. Do not throw a	ny nart away	
		s on how to use the student's dev		ily pair away.	
	Student's self-care C	GM skills	Indep	endent?	
The student troublesho	oots alarms and malfur	nctions.	☐ Yes	□ No	
		deal with a HIGH alarm.	☐ Yes	□ No	
		deal with a LOW alarm.	□ Yes	□ No	
The student can calibr			☐ Yes	□ No	
The student knows wh or fall in the blood glud		I indicates a rapid trending rise	□ Yes	□ No	
The student should be e	scorted to the nurse if	the CGM alarm goes off: ☐ Yes	□ No

Hypoglycemia treatment Student's usual symptoms of hyp	oglycemia (list below):
glucose product equal to gra	mia, OR if blood glucose level is less than mg/dL, give a quick-acting ams of carbohydrate.  s and repeat treatment if blood glucose level is less than mg/dL.
If the student is unable to eat or d convulsions (jerking movement):	rink, is unconscious or unresponsive, or is having seizure activity or
<ul><li>Position the student on his c</li><li>Administer glucagon</li></ul>	
Injection:	Traine of glacagen accu.
	☐ ½ mg ☐ Other (dose)
<ul><li>Route:</li><li>Site for glucagon injection:</li></ul>	☐ Subcutaneous (SC) ☐ Intramuscular (IM)
Nasal route:	
□ 3 mg	
<ul><li>Route:</li><li>Site:</li></ul>	☐ Intranasal (IN) ☐ Nose
<ul> <li>Contact the student's health</li> </ul>	al Services) and the student's parents/guardians. care provider. lacing mode in suspend or disconnect. Always send pump with EMS to hospital
Hyperglycemia treatment Student's usual symptoms of hyp	erglycemia (list below):
<ul> <li>For blood glucose greater than correction dose of insulin (see</li> <li>Notify parents/guardians if bloom for insulin pump users: see A</li> <li>Allow unrestricted access to the</li> </ul>	od glucose is over mg/dL. dditional Information for Student with Insulin Pump.

Follow physical activity and sports orders. (See Physical Activity and Sports)

If the student has symptoms of a hyperglycemia emergency, call 911 (Emergency Medical Services) and contact the student's parents/guardians and health care provider. Symptoms of a hyperglycemia emergency include: dry mouth, extreme thirst, nausea and vomiting, severe abdominal pain, heavy breathing or shortness of breath, chest pain, increasing sleepiness or lethargy or depressed level of consciousness.

Additional treatment for ketones:

# **Insulin therapy**

Insulin delivery device:  ☐ Syringe	□ Insulin pen		☐ Insulin pump		
Type of insulin therapy at school:  ☐ Adjustable (basal-bolus) insulin	☐ Fixed insulin thera	ру	□ No insulin		
Adjustable (Basal-bolus) Insulin Th	erapy				
<ul> <li>Carbohydrate Coverage/C</li> </ul>	orrection Dose: Na	me of insulin			
Carbohydrate Coverage:					
Insulin-to-carbohy	drate ratio:				
Breakfast: 1 unit of	f insulin per gra	ms of carboh	ıydrate		
<i>Lunch:</i> 1 unit of ins	ulin per grams	of carbohydr	ate		
<b>Snack:</b> 1 unit of ins	ulin per grams	of carbohydr	ate		
	Carbohydrate Dose	Calculation	Example		
Total Grams of Carbon	ydrate to Be Eaten	_	_	Units of Insi	ulin
Insulin-to-Carbohydrate Ratio = Units of Insulin				11111	
Correction Dose: Blood glucose correction Dose: Blood glucose =mg/dL	ection factor (insulin s	ensitivity fact	or) =		
	Correction Dose C	alculation E	xample		
Current Blood Glucose – 7 Correction		<u>e</u>	= _	Units of Inst	ulin
Correction dose scale (use instead of	of calculation above to	determine in	sulin correction d	lose):	
Blood glucose to mg/dl	L, give units	Blood glucos	se to	mg/dL, give	units
Blood glucose to mg/dl	L, give units	Blood glucos	se to	mg/dL, give	units
See the worksheet examples in <b>Advan Factors</b> for instructions on how to com correction factor.		_			ion

# Additional information for student with insulin pump (continued)

Student's self-care pump skills	Independent?	
Counts carbohydrates	☐ Yes	□ No
Calculates correct amount of insulin for carbohydrates consumed	☐ Yes	□ No
Administers correction bolus	☐ Yes	□ No
Calculates and sets basal profiles	☐ Yes	□ No
Calculates and sets temporary basal rate	☐ Yes	□ No
Changes batteries	☐ Yes	□ No
Disconnects pump	☐ Yes	□ No
Reconnects pump to infusion set	☐ Yes	□ No
Prepares reservoir, pod and/or tubing	☐ Yes	□ No
Inserts infusion set	☐ Yes	□ No
Troubleshoots alarms and malfunctions	☐ Yes	□ No

Meal/Snack	Time	Carbohydrate Content (grams)
Breakfast		to
Mid-morning snack		to
Lunch		to
Mid-afternoon snack		to

Other times to give snacks and content/amount:				
Instructions for when food is provided to the class (e.g., as part of a class party or food sampling event):				
Parent/guardian substitution of food for meals, snacks and special events/parties permitted.				
Special event/party food permitted: ☐ Parents'/Guardians' discretion ☐ Student discretion				
Student's self-care nutrition skills:				
☐ Independently counts carbohydrates				
☐ May count carbohydrates with supervision				
☐ Requires school nurse/trained diabetes personnel to count carbohydrates				
Physical activity and sports				
A quick-acting source of glucose such as $\ \square$ glucose tabs and/or $\ \square$ sugar-containing juice must be available at the site of physical education activities and sports.				
Student should eat □ 15 grams □ 30 grams of carbohydrate □ other:				
□ before □ every 30 minutes during. □ every 60 minutes during □ after vigorous physical activity □ other:				
If most recent blood glucose is less than mg/dL, student can participate in physical activity when blood glucose is corrected and above mg/dL.				
Avoid physical activity when blood glucose is greater than mg/dL or if urine/blood ketones are moderate to large.				
(See Administer Insulin for additional information for students on insulin pumps.)				

### **Disaster/Emergency and Drill Plan**

parents/guardians. School nurse or other designated personnel should take student's diabetes supplies and medications to student's destination to make available to student for the duration of the unplanned disaster, emergency or drill.			
☐ Continue to follow orders contained in this DMMP.			
☐ Additional insulin orders as follows (e.g., dinner and nighttime):
