

An Important Message from the Board of Education President

March 6, 2019

Dear Irvington School Community,

Legal counsel for the Irvington UFSD Board of Education has conducted an initial review into certain discrepancies associated with the records of a specific district employee. The Board has assessed this information and in recent weeks, brought it to the attention of the Westchester District Attorney and Office of the New York State Comptroller in a request for independent agency review. The Board will fully cooperate with the work of these agencies, and we have been asked by the District Attorney not to offer further comment at this time.

In addition, the Board will soon begin its own independent review of the District's Human Resources practices and processes through the retention of an objective third party professional. We expect to provide information on this initiative in the coming days, and will continue to update our community as necessary.

Sincerely,

Michael Hanna
BOE President
Irvington UFSD
