

An Important Message from the President of the Board of Education

September 7, 2019

Dear Irvington School Community,

The District continues to cooperate with the Westchester District Attorney and Office of the NYS Comptroller in the reviews of certain discrepancies we brought to their attention in March. While that review continues, the independent, third-party 2019 Human Resources (HR) Audit commissioned by the Irvington Board of Education has been completed.

The report analyzes current HR functions in the Irvington schools by measuring the District's implementation of the extensive 2012 HR audit recommendations and also provides areas for focus going forward. The current report shows broad improvements in nearly every function, with a recommended focus on improvements to employee attendance systems.

As the District prepares to implement the recommendations from the 2019 Audit, [the report is available for review by clicking here.](#)

Sincerely,

Brian Friedman
BOE President
