

District COVID Communication - IHS & IMS

December 7, 2020

Dear Irvington School Community,

The District is committed to providing timely and informative communication regarding COVID-19. When confirmed, positive cases are reported, individuals who had close contact with the positive case will be personally notified by a school staff member and provided with guidance as to how to proceed according to NYS Department of Health guidelines. If one is not directly affected by the positive case, no such notification will occur. General information notices will be provided in all cases.

*Today we learned that a member of the **Irvington High School** community tested positive for COVID-19. Due to the individual's last date of attendance at the MS/HS Campus, there are no impacts on school operations or need for others outside the particular household to quarantine.*

*In addition, we also learned that a member of the **Irvington Middle School** community tested positive for COVID-19. Due to the individual's last date of attendance at the MS/HS Campus, there are no impacts on school operations or need for others outside the particular household to quarantine.*

As with all confirmed cases of the virus, the District has reported the matter to the Department of Health. We remain vigilant in the implementation of all NYS required health and safety protocols, which includes the cleaning of our facilities.

Please continue to act responsibly and do your part by practicing those actions that will keep you and others healthy.

Very truly yours,

Kris

Dr. Kristopher Harrison
Superintendent of Schools
