COVID-19 Booster Clinic Survey

September 16, 2022

Dear Irvington School Community,

The health and safety of all students in the Irvington UFSD is our highest priority. In this spirit, we are conducting a survey to collect preliminary information as to the community's interest in the District holding a COVID-19 Bivalent Booster Clinic for eligible students (12+). Please note that as has been done in the past, if such a clinic was to be facilitated, parents would be required to be present when their children receive the booster.

Please complete this voluntary survey, [which can be accessed by clicking here](#), by Tuesday, September 20th, 4:00 pm. While participating in this survey is optional, I hope that you will consider sharing this information with us, as it will help to inform our planning. Additionally, the information provided through the survey is not binding in any way and is only intended to gauge interest within our school community.

Once all of the responses are collected a determination will be made regarding facilitating the clinic, and information as to the status will be communicated in a timely fashion to the school community.

Your support in helping to keep our schools safe for our students and staff is greatly appreciated.

Sincerely,

Kris

Dr. Kristopher Harrison
Superintendent of Schools
