### Board of Education Announces Special Meeting Related to the Proposed Capital Project

#### **Save the Date!**

February 15, 2019

Dear School Community,

Over the past weeks, the Board of Education and the District administration has moved forward with planning for the capital projects to improve the maintenance, security, and learning environments of our schools. We have been appreciative of the thoughtful dialogue with our school community about the scope of projects at the February 7th Board of Education meeting and the February 9th Capital Project Forum. Both meetings provided great examples of why community engagement is invaluable because the stakeholder conversation is helping to inform the project planning.

The Board and administration, along with its professional partners, are considering community member's thoughts and suggestions and, specifically, are actively looking into options for facility's structure(s) to meet the District's needs for a safe and appropriate work environment for staff and to protect our investments in equipment. The proposed capital projects, including any changes, will also be discussed at a **special Board of Education meeting that will be held on Tuesday, February 26, 2019 at 7:30 pm in the Campus Presentation Room (CPR)**, which is located in the library on the MS/HS Campus. All community members are encouraged to attend this important meeting to learn more about how the proposed project has evolved thanks to the feedback from our school community.

In advance of the meeting, please take time to review the many Capital Project-related resources, including [the most current presentation and updated Q&A, that are posted on the District homepage or by clicking here.](#)

Thank you for your continued interest in the proposed capital project and for your ongoing support of our schools, students and staff.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Kristopher Harrison".

Dr. Kristopher Harrison  
Superintendent of Schools
